

Acknowledgments

This document represents the commitment, dedication, and efforts of many individuals, concerned citizens, and natural resource specialists from in and outside the Jackson Creek watershed. Foremost, we wish to thank the Jackson Creek Stakeholder Advisory Committee (SAC). This group of dedicated public citizens was established from a letter mailed March 24, 2000, to 400 residents, property owners, and community leaders in the watershed. The committee played an active role in reviewing, discussing, and critiquing the individual elements of the assessment. Their combined participation of more than 420 hours of volunteer time was invaluable and is very much appreciated. The Technical Advisory Committee (TAC) provided a companion effort, without which this document would not have been completed in a timely manner or with the professional perspective it conveys. The TAC donated a combined total of at least one thousand hours on this project, valued at more than \$40,000. Their commitment to work together as a committee, provide assistance to the SAC, and to contribute written reports in a timely fashion was essential to the project.

Completion of the Jackson Creek Watershed Assessment would not have been possible without the financial support of the Oregon Watershed Enhancement Board, USDI Bureau of Reclamation, USDA Forest Service, Rogue River National Forest, and Oregon Department of Environmental Quality. Thank you all very much.

The Rogue Valley Council of Governments (RVCOG) provided staff support for the project. Corky Lockard led the effort as project manager with the assistance of Beth Franklin, Project Coordinator, and Susan Cross, Technical Assistant. Ms. Franklin's capabilities were integral and her proficiencies were demonstrated in coordinating the varied facets of the project. Her professional skills are evident in the *Issues and Concerns Element* of the document. Ms. Cross's contributions came at the end of the project, and her ability to identify with the project, provide technical assistance for the *Historical Element* and critique the document was very valuable. Robert Horton contracted with the RVCOG to analyze, and write the text of the Watershed Assessment, and synthesize the contributions of other authors. His skill is apparent in the *Socioeconomic Conditions Element* and throughout the entire manuscript.

We gratefully acknowledge contributions by everyone not mentioned who were instrumental in providing time and resources in completing this project. Your assistance was essential and is greatly appreciated.

RVCOG Staff

Corky Lockard (Project Manager, RVCOG)
Beth Franklin (Project Coordinator, RVCOG)
John Morrison (Public Involvement Specialist, RVCOG)
Deb Kidd (Public Involvement Specialist, USBR)
Tim Westfeldt (GIS Specialist, RVCOG)
Marc Springer (GIS Specialist, RVCOG)
Chris Olivier (GIS Specialist, RVCOG)
Susan Cross (Project Technician, RVCOG)

Authors and contributors of the technical elements:

- Element 1: Historical Conditions of Jackson Creek
 - Paul Kangas (Forester, City of Jacksonville)
 - Susan Cross (Project Technician, RVCOG)
 - Ken Gerschler (Planner, City of Central Point)
- Element 2: Channel Habitat Type (CHT) Assessment
 - Stephanie Eisenbarth (Environmental Engineer EIT, USBR)
 - Rob Burns (Fish Biologist, USFWS)
- Element 3: Hydrology and Water Use
 - Mike Van Liew (Hydrologist, OWRD)
 - Paul Measles (Hydrologist, ODA)
- Element 4: Plant Communities Assessment
 - Gene Hickman (Plant Ecologist, Volunteer/Retired NRCS)
 - Paul Kangas (Forester, City of Jacksonville)
- Element 5: Riparian Condition Assessment
 - Stephanie Eisenbarth (Environmental Engineer EIT, USBR)
- Element 6: Wetlands Assessment
 - Jeff McLaughlin (Wetlands Specialist, USBR)
- Element 7: Sediment Sources Assessment
 - Paul Measeles (Hydrologist, ODA)
- Element 8: Channel Modification Assessment
 - Dick Link (Geologist, USBR)
- Element 9: Water Quality Assessment
 - Brad Prior (Water Quality Specialist, ODEQ)
- Element 10: Fish and Fish Habitat Assessment
 - Alan Ritchey (Fish Biologist, ODFW)
 - Rob Burns (Fish Biologist, USFWS)

Stakeholder Advisory Committee (SAC)

Bill Brewster	Watershed resident
Bret Moore	Vice President, Homebuilders Assoc.
Chuck Root	Bear Creek Valley Sanitary Authority
Cliff Beebe	Westwood Subdivision Water Commission
Dave Stienfeld	U. S. Forest Service
Don Bradshaw	Rogue River Valley Irrigation District
Donna Schatz	Jacksonville City Council
Gene Johnson	Watershed resident
Genivieve Rasmussen	Bureau of Land Management
Jack Rodgers	Watershed resident
James Coleman	Jacksonville Forestry Committee
John MacDiarmid	Bear Creek Watershed Council
Jon Shaw	Jackson County Historical Society
Larry Smith	Jacksonville Woodlands Assoc.
Max Bennett	Oregon State University Extension Service
Marilyn Rice	Watershed resident
Myra Erwin	Sierra Club
Pamela Ahr	Jackson County Roads and Parks
Tim Hurn	Jackson County Roads and Parks
Richard O. Niedermeyer	Watershed resident
Richard R. Hein	Watershed resident
Robert Glaesemann	Watershed resident
Stephen Benston	Rogue River Valley Irrigation District
Wayne Robertson	Watershed resident
Will Hislebeard	Motorcycle Riders Association
