

R & E Grant Application 25-27 Biennium

Project #: 25-015

Hatchery Enhancement (E) Bundle 25 - Cycle 2

Project Information

Requested Cycle: 25-2
R&E Project Request: \$10,000
Other Funding: \$10,000
Total Project: \$20,000
Spending Start Date: 1/1/2026
Spending End Date: 6/30/2027
Project Start Date: 1/1/2026
Project End Date: 6/30/2027
Organization: ODFW - North Willamette Watershed

Applicant Information

Name: Brent Hinnars
Address: 17330 SE Evelyn St
Clackamas, OR 97015
Telephone: 971-673-6006
Email: brent.a.hinnars@odfw.oregon.gov

Past Recommended or Completed Projects

Number	Name	Status
25-014	Hatchery Restoration (R) Bundle 25 - Cycle 2	Approved

Authorized Agent

Name: Chris Kern
Address: 7118 NE Vandenberg Ave
Adair Village, OR 97330
Telephone: 541-757-5254
Email: chris.j.kern@odfw.oregon.gov

Location Information

Where is it?

The project will occur Statewide

The project will occur on public land owned or managed by the applicant

Site Description

Street Address, nearest intersection, or other descriptive location.

Multiple ODFW Hatcheries - Operated by ODFW

Directions to the site from the nearest highway junction.

Multiple locations throughout the state - Map is attached in the additional material section.

Following project completion, public anglers will be allowed the following level of access to the project site:

Full access

Please describe what leases, easements, agreements are in place to ensure angler access to the project site, and what is the length of each agreement.

Dominant Land Use Type:

Forest

Wetland

Rural residential

Project Location

General Project Location.

County: ODFW Managed Hatcheries, Coos Coun ty

ODFW Dist: Multiple

Tributary of: Pacific Ocean

Specific Project Location.

Latitude

Longitude

Project Summary

Project Summary

Please provide a couple sentence summary of the proposal.

Update and install educational signage at ODFW fish hatcheries.

Overall Project Goals

Describe the primary goals or outcomes of the entire project, including elements not requesting funding from R&E.

Update and replace old faded and no longer visually appealing educational signage at ODFW Hatcheries

Provide educational opportunities for hatchery visitors which range from anglers, families, school field trips and folks just needing to stretch their legs on a road trip.

Primary objectives of R&E funding

Please describe the measurable objectives for the R&E portion of the funding request.

Provide a more enjoyable experience for the public visiting State Hatcheries

Current Situation/Justification

Please describe the current situation and explain why this funding is needed.

The majority of educational signs at hatcheries across the state are old, weathered and outdated. ODFW has a nice selection of updated materials that will provide a better experience for visitors.

Recreation and Commercial Benefit

This project will provide benefits to:

There are no anticipated recreational or commercial fishery benefits

Explain how this project will contribute to current (and/or potential) fishing opportunities, access, or fisheries management.

Signage will allow visitors a more educational experience

Percent benefit split between Commercial and Recreational anglers:

0 % Commercial

100 % Recreational

Please explain, or justify, how the percentage split was determined:

Along with families, school groups etc. angling visitors to hatcheries are primarily recreational anglers.

This project has been identified as an ODFW priority for:

Local/watershed

Basin/regional

Statewide

Does this project directly support implementation of the ODFW Strategic Plan and/or current Fish Division priorities?

No

Please briefly explain when this was identified as a priority and what process or workgroup was used to identified this as an ODFW priority.

The restroom at Bandon has been discussed for several years as the hatchery is in close proximity to the City of Bandon and is visited by multiple user groups.

Identify any plan or other document that identifies this priority.

https://inside.dfw.state.or.us/i_e/docs/FishHatcheryManual.pdf

<https://www.oregonconservationstrategy.org/conservation-toolbox/outreach-education-and-engagement/>

Is this project part of an approved Salmon-Trout Enhancement Program (STEP) activity?

No

This project is intended to benefit the following species:

Fall Chinook Salmon

Spring Chinook Salmon

Coho Salmon
Winter Steelhead
Summer Steelhead
Rainbow Trout

This project will benefit anglers or fishery by providing:
Education/Outreach

Education/Outreach

This project will:

Educate the public about angling opportunities and fisheries in Oregon
Teach the public about fishing basics, fishing gear, fishing techniques, and/or fishing etiquette
Teach the public about fish (ecology, life history) and/or fish habitat needs
Teach the public about watershed health and it's relation to the health of fish populations

The main focus of this project is to:

Create educational material
Informational signage/kiosk

Is this education/outreach associated with ODFW efforts?

Yes
ODFW facility

This education/outreach effort will target:

Youth (< 18 years old)
Adults (18 years old or more)
Families (Youth and Adult family members/mentors)
New anglers
Current anglers
Returning anglers (those who used to fish but don't currently)
Underserved populations
School groups

Number of people targeted by this proposal:

10000

Estimate the average amount of time that each attendee will participate in the proposed effort.

.25

Explain the duration/frequency of the proposed outreach effort.

Hatcheries typically have between 6-8 signs per facility. These displays teach the public about the species reared, life cycles, and the facility in which they are visiting.

Will the developed materials be available for use by other organizations or the public(i.e curriculum, teaching techniques, educational strategies, materials)?

No

Fish Hatcheries are a common and frequent destination for school groups and field trips, signage would add to the educational opportunity for these visitors.

Project Description

Schedule

Create and install signage	09/2026	Yes
----------------------------	---------	-----

Permits

Permit	Secured?	Date Expected
	No	

Project Design and Description

Please describe in detail the methods or approach that will be used to achieve the project objectives.

Signage will be made with ODFW internal graphic design request forms. This catalog can be accessed by following the following link.

https://inside.dfw.state.or.us/i_e/docs/FishHatcheryManual.pdf

Engineering

Does the project involve capital improvement, engineering, site grading or other construction?

Yes

On ODFW land or managed by ODFW staff

Project Management and Maintenance

What is the life expectancy of R&E funded construction, structures, equipment, supplies, data or fishery?

Signs > 10-15 yrs

Who is responsible for long term management, maintenance, and oversight of the project beyond what is funded by R&E.

ODFW Staff will make necessary repairs and maintenance

Will the project require ongoing maintenance?

Yes

ODFW properties and equipment will be maintained by ODFW staff to ensure longevity

Is there a plan to collect baseline data and to conduct monitoring efforts to measure the effectiveness of the project?

Not necessary

Project Funding

Funding

Have you applied for OWEB funding for this project?

No

Has this proposal, or similar proposal for this project location, previously been denied by OWEB or other funding source?

No

Other Funding Source	Type	Secured	Dollar Value	Comments
Oregon Wildlife Foundation	Other	Pending	10000	50/50 match for signage
Bandon Program Funds	Other	Pending	30000	Program funds that will be used towards project
		Total	40000

Internal Review Results

Review Score: 3.4 out of 5

(1 = Do Not Fund, 2 = Strengthen Proposal, 3 = Recommend with Conditions, 4 = Recommend, 5 = Strongly Recommend)

Specific Review Team Questions

How many signs will be added at how many hatcheries?

This grant will allow hatcheries to replace old and worn out signage. There are photos in the attachments that show the list of hatcheries as well as examples of signs that need replaced and also examples of signs that they will be replaced with. The Hatchery coordinators will work with Hatchery staff to prioritize signs to be replaced within the awarded budget. Typically there are between 6-8 signs at each hatchery. These typically include a welcome sign and map, along with informational signage such as species reared, life histories, etc.

Have the cultural surveys been completed for this project?

This question is in relation to the Bandon Restroom which has been moved to the R bundle. ODFW engineering has been involved in this project and it is nearly shovel ready.
