

R & E Grant Application 05-07 Biennium

Project #:
05-104

Bonneville Hatchery Visitor Center Restoration

Project Information

R&E Project Request: \$7,500.00
Match Funding: \$5,100.00
Total Project: \$12,600.00
Start Date: 7/20/2006
End Date: 1/15/2007
Project Email: bv hatchery@saw.net
Project Biennium: 05-07 Biennium
Organization: ODFW - Bonneville Hatchery

Applicant Information

Name: Loren Jensen
Address: 70543 NE Herman Loop
Cascade Locks, OR 97014
Telephone: 541-374-8393 x22
Telephone 2: 541-374-8316 x21
Fax: 541-374-8090
Email: bv hatchery@saw.net

Past Recommended or Completed Projects

This applicant has no previous projects that match criteria.

Project Summary

This project is NOT part of ODFW's 25 Year Angling Plan.

Activity Type: Education
Summary: We are restoring and updating an old tourist display in the historic hatch house building at the Bonneville Hatchery. The old display has not been open to the public for several years. Two Mt Hood Community College fisheries students, Jessie Elmore and myself, Jenni Remillard, are using this restoration as our senior project. We have developed new display ideas and have begun gathering information. This new display will be on the Bonneville Hatchery itself, highlighting the hatchery's history, species of fish raised, a waterflow map, etc. We feel this project will add to the hatchery's centennial celebration in 2009.

Objectives: Currently, there are no displays on the Bonneville Hatchery itself, and our main goal is to educate the public about the hatchery. We feel that this is extremely important as hatcheries are supported by taxpayers. Also, we

hope to dispel any misconceptions the public may have towards hatcheries. This project will benefit the public and help educate them about the Bonneville Hatchery as well as the fish Bonneville raises.

Fishery Benefits:	Many people are curious about hatcheries, especially fishermen. By learning how a hatchery like Bonneville operates, they can form educated opinions and decisions.
Watershed Benefits:	Although we are not directly benefiting a watershed, we will be providing free information that visitors can take to learn more about protecting watersheds.
Current Situation:	The existing tourist display in the hatch house is in need of some repairs and updating. The area needs new wall paneling, carpet, and will also need to be painted. Some work has already been completed. We have removed all of the stored material from the area and have begun working on restoring the display cases which were already present. Much of the text for the displays has been gathered and will now need to be formatted for printing on signs. Photographs and items for the display cases have also been gathered. We now need help with funding to complete the displays.
Alternatives:	We have applied for other grants and have so far been turned down. If we do not come up with funding, we will not be able to re-open the area to the public.
Designer:	Hatchery Manager, Hatchery maintenance staff, and MHCC Fisheries students.
Methods:	We have already cleared out the area. We must now put up new paneling, paint, replace the old carpet, print out the display text on signs, restore the display cases and create the new displays. We will also enclose the overlook with plexiglass to protect visitors and displays. Since school began in the fall, we have been researching and compiling data from numerous sources. We now need to format this information into displays.
Inspector:	Hatchery Manager and Facility operations specialist
Funding Elements:	R&E funds will be used mainly for the life cycle models. Realistic, long lasting life cycle models are quite expensive. We will also use funds for plexiglass and text for the display signs. We want to have professional, educational displays.
Partners:	No
Existing Plan:	No
Affected Contacted:	No
Affected Supportive:	No

Affected Comments: There are no affected individuals or organizations to be contacted.

Project Schedule/Participants/Funding

This project has no Schedule/Participants/Funding.

Affected Species:
Chinook, Coho, Steelhead

Project Permits

This project has no permits.

Project Monitoring

This project has no monitoring.

Project Maintenance

Organization	Address	Activity	Frequency
ODFW Bonneville hatchery staff	70543 NE Herman Loop Cascade Locks, OR 97014	Display and area check	once weekly, and when as needed

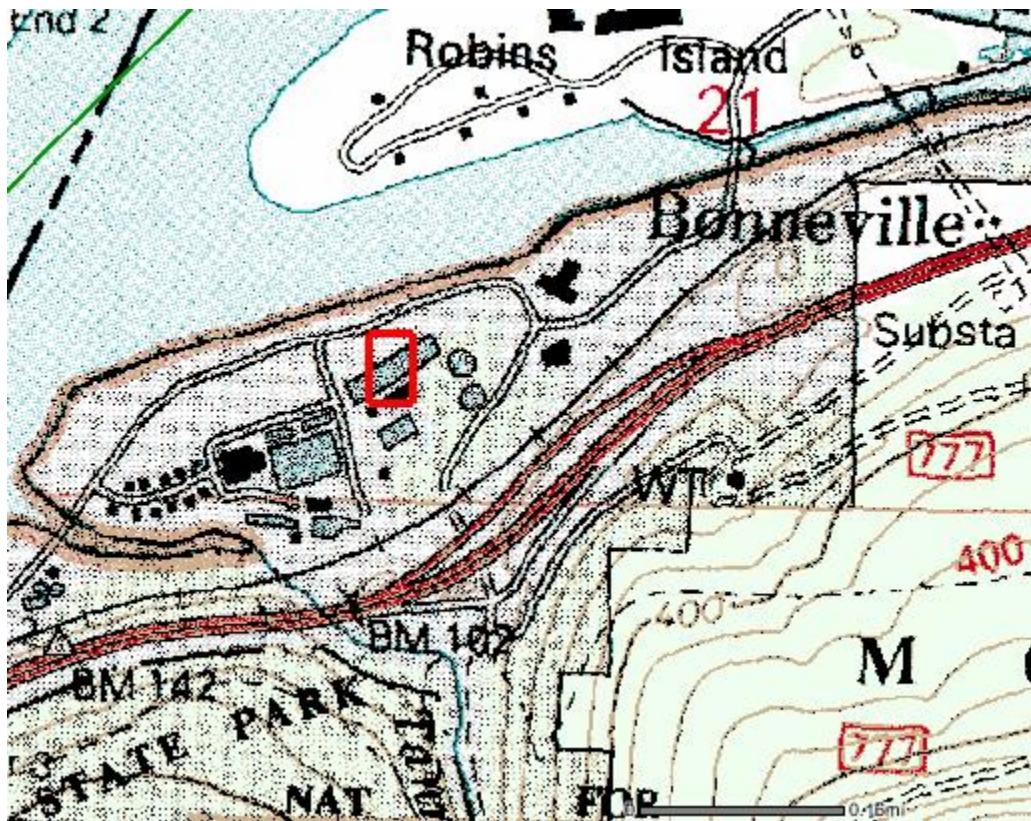

Project Match Funding

Funding Source	Cash	In-Kind	Other	Description	Total	Secured?	Conditions?	Comments
R&E Request	\$7,500.00	\$0.00	\$0.00		\$7,500.00	No	No	
Bonneville Hatchery	\$0.00	\$5,100.00	\$0.00	NA	\$5,100.00	Yes	No	
				Total Match Funding:	\$12,600.00			

Project Budget

Item	Item Type	Units	Unit Cost	R&E Funds	Match Funds	Total
Text lettering for displays and photos	Contracted Services	1	\$1,000.00	\$1,000.00	\$0.00	\$1,000.00
Life size models of Salmon	Equipment	10	\$500.00	\$5,000.00	\$0.00	\$5,000.00
Carpet	Supplies/Materials /Services	1	\$3,500.00	\$0.00	\$3,500.00	\$3,500.00
Lighting	Supplies/Materials /Services	1	\$650.00	\$0.00	\$650.00	\$650.00
Lumber	Supplies/Materials /Services	30	\$25.00	\$0.00	\$750.00	\$750.00
Paint	Supplies/Materials /Services	10	\$20.00	\$0.00	\$200.00	\$200.00
Plexiglass	Supplies/Materials /Services	1	\$1,500.00	\$1,500.00	\$0.00	\$1,500.00
					Total Budget:	\$12,600.00
