The R&E program has a full time Construction Project Manager that provides pre-project consultation, project designs, project permits, and assistance with on site project construction and implementation for R&E projects. Funding is needed to keep this position, which is a vital component to the R&E program. We are also asking for funds to purchase 2 steel shipping containers to store R&E owned equipment in to protect it from the outdoor elements.

This project will provide benefits to:

Recreational fisheries
Commercial fisheries

Explain how this project will contribute to current (and/or potential) fishing opportunities, access, or fisheries management.

Each project that the Construction Project Manager works on will create or improve benefits to recreational and/or commercial fisheries.

Percent benefit split between Commercial and Recreational anglers:

10 % Commercial
90 % Recreational

Please explain, or justify, how the percentage split was determined:

90/10 split is an estimate based upon money coming into the program, 90% from sport license

sales, 10% from commercial license sales and landing fees.

This project has been identified as an ODFW priority for:

Local/watershed
Basin/regional
Statewide

Does this project directly support implementation of the ODFW Strategic Plan and/or current Fish Division priorities?
